Barreque, Prince Albert,
June 1st, 1894.

W. T. GILMOR & CO.

We are expecting a car load of A No 1
Furniture in the White Wood. By plac-
ing your order with us, you can have any
article you require finished to correspond
exactly with the balance of your furni-
ture.

We finish furniture in any of the
following styles:

Quartered or Antique Oak
French or Common Walnut
Antique or Common Ash
Rose Wood, Ebony and
Scotch Granite.

Upholstering and all kinds of repairs
artistically executed.

As we are to a large extent the manufac-
turers of our own furniture you can rely
upon our new goods not looking as if
"second hand" and the same reason enables
us to sell at prices that cannot possibly be
beaten in this district.

W. T. GILMOR & CO.

Before buying a Bicycle call on Fly,
he sells best in Canada. Best riders use
t. Lowest figures, best terms. He will
show samples, test speed. Other agents
are not in it.

W. T. GILMOR & CO.

J. M. Campbell, Oil Stand.

Derby Ping The Coolest
and most enjoyable Smoke
Ever produced.

PETERMAN.—At Prince Albert, on June 3rd,
the wife of J. T. Peterman, or a daughter.

A WONDERFUL INVENTION.

During the past two decades the world
has seen many wonderful improvements
in machinery for the saving of labor, but
in no trade is the improvement more
marked than in the printing business. A
few years ago two-thirds of the newspapers
in the country were printed on the old
fashioned hand press. To-day there is
scarcely an office where the cylinder
machine is not found, and it is only a
matter of time until setting type by hand
for newspaper work will be abolished and
type-casting machines take the place of
compositors at the case.

The celebrated type-casting machine
known as the Rogers Typograph, man-
ufactured by the Canadian Typograph
Company, Windsor, is fast coming into
general use in Canada. The machine is
exceedingly compact, occupying 3x3 feet
of space, and is designed to be operated
either by hand or power. No types are
used, but a complete line is cast from a
row of brass matrices which are aligned
by operating keys similar to those of a
typewriter, the gentlest touch bringing a
letter into position. The spacing is uni-
form and automatic. The distribution is
also automatic, a slight raising of the ma-
chine top causing the assembled matrices
to return to their respective places. A
metal pot, is on the left of the operator, in
which a plunger operates forcing the
metal into the mold and making a perfect
cast. In towns where there is no gas
service they use benzine, stored in a small
tank from which gas is generated as it
passes through a heated burner.

The machine is simple in construction
and operation, and offices where they
have been in operation for some time
claim that a large saving can be made
annually over the old method of setting
type by hand. Mr. S. S. Stephenson of
the Canadian Planet office, says he effects
a saving of \$97 per month by the use of
the machine, figuring on \$80,000 ems per
month. Proficient operators can attain a
speed of 60,000 ems per week corrected
matter. A certified statement made by
the foreman of the Toronto Evening News
shows that the average per hour per man
on a week's record for seven machines was
2,571 or about equal to the product of
three typewriters.

It goes without saying that in an office
where a daily, as well as a weekly is pub-
lished, that a considerable saving can be
effected. In a weekly office where less set
matter is required, it remains to be
demonstrated that there is a bonanza in it
for the country printer.

The Why and Wherefore.

There is nothing marvelous in the fact
that Hood's Sarsaparilla should cure so
many diseases. When you remember
that a majority of the disorders "flesh is
heir to" are due to impure or poisonous
condition of the blood, and that Hood's
Sarsaparilla is an effective and radical
blood purifier, the whole thing is ex-
plained.

Besides its blood purifying qualities,
Hood's Sarsaparilla also contains the best
known vegetable stomach tonic, diuretic
kidney remedies and liver invigorants
and is thus an excellent specific of all dis-
orders of these organs, as well as for low
condition of the system, or that tired
feeling.

WILLOUGHBY.

Report of School for the Month of May.

Standard 4.—Ruth Shields, Maggie Mc-
Iver.

Standard 3.—Anna Shields, Lizzie Glass
Kate McIver.

Standard 2.—Agnes McIver, Mary McAn-
ley, Willie Campbell, Rose Glass, Angus
Campbell.

Standard 1.—Dan McIver, Charlie Long.

After being closed for almost a year the
school was opened on the 7th of May.

The children have begun work with
earnestness and zeal. It is to be hoped
they will continue as they have begun.

It is indeed very encouraging to a
teacher to see the pupils in their places
every day, and diligently applying them-
selves to their studies. It is only when
there is regular attendance, that a teacher
can accomplish the work of training the
opening mind.

Christian Endeavor is well attended.

The meeting was very interesting last
evening, almost everyone present reading
a verse on the topic or taking a part in the
meeting.

A literary concert is to be held in this
place in the near future. We expect a
good programme as there is some good
local talent.

Brandon had its first market day on
Friday.

Lacrosse on Saturday: Shamrock, 6;
Corwall, 1.

Four hundred Montreal carpenters are
still on strike.

The anniversary of the battle of Ridg-
way was celebrated in Toronto on Satur-
day.

Fires in St. John, N. B., did damage
exceeding a quarter of a million dollars.

A fund for the benefit of British Colum-
bia flood sufferers is being collected in
Toronto.

Derby Ping The Coolest
and most enjoyable Smoke
Ever produced.

NEWS OF THE WORLD

Heavy snow in Colorado.

The contemplated Orange demonstra-
tion at Brandon on July 12th has been
declared off.

A proclamation has been issued forbid-
ding the sale of ammunition in certain
portions of the far north.

Passengers on the Canadian Pacific are
being transferred by steamer on the Fraser
river. The water is still rising.

Fifty people have perished by floods in
Spain.

A serious outbreak has occurred in
Corea.

Hawaii and Great Britain are racing for
an island important for the Pacific cable.

Ninety-five miles of Northern Pacific
tracks are under water, and Great North-
ern trains are delayed by a washout.

Government troops have suffered defeat
in Salvador. Six hundred soldiers were
killed. Bonilla succeeds Ezeta as presi-
dent.

The London Times says that sentiment
should give way to business interests at
the coming colonial conference at Ottawa.

The programme has been arranged for
the High Hill camp meeting.

The spring regatta of the Winnipeg
Rowing club passed off successfully Sat-
urday.

Three hundred cords of wood were de-
stroyed at Oakville on Saturday by a
bush fire.

A boy was saved from drowning in the
Red River on Saturday through the
bravery of a father.

A young man named John Murphy was
drowned while bathing in the Assiniboine.

THEY WANT NAMES.

Frank S. Taggart & Co., 89 King Street
West, Toronto, Ontario, desire the names
and addresses of a few people in every
town who are interested in works of art,
and to secure them they offer to send
FREE, "Cupid Guides the Boat," a superbly
executed water color picture, size 10x13
inches, suitable for framing, and sixteen
other pictures about same size, in colors,
to anyone sending them at once the
names and addresses of ten persons (ad-
dressers of fine pictures) together with five
three cent stamps to cover expense of
mailing, etc. The regular price of these
pictures is \$1.00, but they can all be
secured free by any person forwarding the
names and stamps promptly.

NOTE.—The editor of this paper has
already received copies of above pictures
and considers them really "Gem of Art"

AN INVITATION.

Much is being said and written about
the Thirteenth International Christian
Endeavor convention, which is to convene
in Cleveland, O., July 11, and continue
five days. Much can be said, for in the
largeness and thoroughness of the prepa-
rations that are being made for it, no
previous convention can boast. Neither
has any large city offered as many
of Nature's charms to contract the oppor-
tunities of the July sun. A most de-
lightful or beautiful place in which to
hold such a gathering it would be hard
to find. Most warm-hearted or enthusiastic
Christian Endeavorers do not live in the
United States. A more hearty or whole-
souled welcome than is being prepared
has not been dreamed of. Cleveland
wants her convention to excel all others
in attendance, in enthusiasm, in spiritual
uplift, and in practical helpfulness.

OUR OTTAWA LETTER

OTTAWA, June 1.—In the Common's
this afternoon Tupper's bill to prevent
the use of defective tackle in loading and
unloading ships was passed.

Daly's bill for the better preservation of
game in the Northwest was passed through
committee.

A lengthy discussion took place on
Comptroller Wood's bill to provide for
the inspection of hay pressed for exportation.
The bill was passed without amend-
ment.

Thompson moved the second reading of
resolutions to provide a new county judge
for Kootenay district, British Columbia.

After recess Foster moved the house
again into committee to consider the tariff.

The term house furnishing hardware was
changed to builders' hardware and the
duty placed at 32 1/2 per cent. The duty on
bituminous coal was continued at 60 cents
per ton.

Charlton asked that the duty be re-
duced as in the new United States tariff.

Foster said nobody could tell what the
American duty on coal would be.

Cartwright said the house knew more
about the American tariff than about the
government's tariff.

Charlton, Campbell and Mcmillen
urged a reduction or abolition of the duty
in the interest of transportation and
manufacturing interests.

The duty on iron and steel bands, hoops
and strips, less than eight inches in width
was made \$11 per ton.

The duty on eggs was placed at five
cents per dozen, with the condition that
they are to be free as long as eggs are
admitted free into the United States.

Rice, when imported by manufacturers
of rice starch for use in their factories, is
fixed at three-fourths of a cent per pound.

The duty on rice imported for ordinary
use is a cent and a quarter a pound.

The opposition objected to allowing
manufacturers already highly protected to
import rice at lower rates of duty than
those charged other importers and urged
that starch manufacturers be given free
corn and free coal.
